PHARMACY INFO

Pharmacy will place appropriate order or orders needed based on the Order Comments.

Tidbits on Order Entry for **Cycler** in PharmNet

- Infuse Over: 1 Hour
- If no Additives, only one order is needed
- If Additives:
 - One order per bag prepared is needed. This is so each bag can be labeled appropriately with the volume of bag and any additive amounts.
 - Volume of PD bag being used needs to be the Volume for the order ie, if 6 L bag being used, the PD volume would be 6 L. This is true even if the order is for 8000 mL
 - Additive amount needs to be adjusted based on the size of the bag ie, KCl 2 mEq per liter would be 12 mEq per 6 L bag
